Date:	

Your signature indicates your facility is and will be in compliance with the requirements for net metering as defined by 220 ILCS 5 (Public Utilities Act). Vista Energy maintains an enrollment cap for net metering as described in the Illinois Administrative Code (Title 83 Section 465.35b). Your application is one part of the process and does not guarantee participation in net metering. You are responsible for meeting the requirements of local authorities and interconnection of your Generating Facility with your utility's facilities. Vista Energy provides Net Metering Service in conjunction with the standard Terms of Service for your rate class.
